# IS4030 Team Contract

Team Name: __SkyNet Squad_____ Date:___9/1/2026_____

GOALS: What are our team goals for this class?
What do we want to accomplish? What skills do we want to develop or refine? What grade do we want to earn?

- As a group, we aim to collaborate, communicate, and present information effectively
- Interested in developing Power BI skills with dashboard creation
- LinkedIn / portfolio worthy project
- Developing foundational skills that will be practical in our future careers
- We will produce work reflecting an A+ grade

EXPECTATIONS: What do we expect of one another in regard to attendance at meetings, participation, frequency of communication, the quality of work, etc.? Who will facilitate the meetings (e.g., will we take turns keeping 'meeting minutes'?)

- Project Manager (Wade) will "facilitate" meetings; the entire group will form a consensus of when we will need to conduct meetings.
- Attendance/ obstacles/ personal constraints should all be communicated with the group members in advance
- If we have things to work on and someone can't participate, expect to offer some material we can review in place of your attendance
- Expect to participate meaningfully in group meetings, encourage new ideas, and listen to others
- Everyone should speak and participate. (Every meeting) Each person brings a unique opinion and perspective that can help the group make decisions and consider differences.
- For "meeting minutes" we can create a summary of what was discussed or record the meeting on teams.
- Sprint goal (main goal team wants to accomplish).
- Sprint Review once a month or biweekly depending on the timeline of our project. That will basically allow us to give each other feedback and go over what was completed.

| POLICIES & PROCEDURES: What rules can we agree on to help us meet our goals and expectations? How will we communicate (email, Teams, etc.)? |
| --- |
| • Our communication channels include iMessage, Teams, and Email<br>• Actively participate and meet the expectations of each 'sprint'.<br>• Be respectful of everyone's time, you are expected to arrive on time to team meetings and class<br>• Bring a positive attitude to the classroom and meetings! |
| CONSEQUENCES: How will we address non-performance in regard to these goals, expectations, policies and procedures? What do we do if someone "can't make the meeting"? What do we do if someone "cannot complete the work"? |
| • If expectations are not met initially, this will be verbally communicated to the team member<br>• If a team member is unable to make a meeting, the team member may participate remotely but the team may decide on direction without that team member, and the following steps will be relayed if such an event is unavoidable.<br>• Reoccuring absences without communication will be reflected in peer reviews<br>• If a team member is unable to contribute to group work meaningfully, the concern will be verbally communicated and reflected in peer reviews. |

We share these goals and expectations, and agree to these policies, procedures, and consequences.
